Cookie Policy

Last Modified: 10th September 2023

Cookies are small files of letters and numbers stored on your browser or device that enable the cookie owner to recognize the device when it visits websites or uses online services. The website you visit may set cookies directly, known as first-party cookies, or may trigger cookies set by other domain names, known as third-party cookies. While we may automatically use some cookies that are strictly necessary to provide the services you request or enable communications, we request your consent for all of our other cookie uses.

Types of Cookies We Use

We may use the following types of cookies:

- **Strictly necessary cookies.** Our website requires the use of these cookies to properly operate or provide necessary functions relating to the services you request. They include, for example, cookies enabling you to securely log into our website, use a shopping cart, or purchase products or services. These are session cookies that generally last until you close your browser.
- **Analytical/performance cookies.** These cookies allow us and our third-party service providers to recognize and count the number of visitors and to see how visitors move around our website when they are using it. This helps us improve how our website works by, for example, ensuring that users can easily find what they need on our website. These cookies generate aggregate statistics that are not associated with an individualized profile and are persistent cookies that generally last one day.
- **Functionality cookies.** These cookies enable helpful but non-essential website functions that improve your website experience. By recognizing you when you return to our website, they may, for example, allow us to personalize our content for you, greet you by name, or remember your preferences (for example, your choice of language or region). These cookies may enable visitor identification over time, but not across different websites. These are persistent cookies.
- **Advertising, tracking, or targeting cookies.** These cookies enable different advertising related functions. They may allow us to record information about your visit to our website, such as pages visited, links followed, and videos viewed so we can make our website and the advertising displayed on it more relevant to your interests. These cookies may enable visitor identification across websites and over time. We may also share the information with third parties for similar purposes. These are persistent cookies.
- **Third-party cookies.** Our website may contain helpful but non-essential features or plug-ins enabling third party services that use cookies, such as social network connectors, maps, advertising networks, or web traffic analysis services. These cookies may enable visitor identification across websites and over time. We do not control the

third party's use of those cookies, their duration, or their ability to share information with other third parties. Please review each party's cookie disclosure before consenting to this use category.

Our Privacy Policy describes our practices for any personal data that our first-party cookies collect, store, or use, including our legal basis for processing personal data.

Except for strictly necessary cookies, all first-party cookies set by this site will expire no later than two years after your last website visit. Third-party cookie expiration periods are set by their respective owners.

Please see our Cookie Table for a list of the individual first-party and third-party cookies potentially used on this site and their specific purposes.

Cross-Border Data Transfers

The cookies we use may process, store, or transfer personal data in and to a country outside your own, with privacy laws that provide different, possibly lower, protections. You consent to this transfer, storing, or processing when you consent to our cookie use. We are based in Cyprus. Please review each third-party cookie provider's policy to learn more about its location.

Your Cookie Choices

You may withdraw your consent for our cookie uses that are not strictly necessary at any time by reengaging the consent manager tool.

Most web browsers allow you to directly block all cookies, or just third-party cookies, through your browser settings. Using your browser settings to block all cookies, including strictly necessary ones, may interfere with proper site operation.

Changes to Our Cookie Uses

We will post any changes to the way we use cookies on this page. If the changes materially alter how we use cookies, we will post a notice on our website and request your consent for the materially different use. Please check back frequently to see any updates or changes to our cookie use notice.
